Easier than pc version. Much feels. Very nostalgia. Such pew pew. Wow.

10 / 10 - Would hold a one-button controller again.. This is a cute, short, thoughtful little game. Lots of contemplations on life and death that doesn't pull punches when it comes to the loss of children. In about two to two and a half hours, you'll be given a lot to think about between games of hide and seek, cooking breakfast, banging your head against locked doors, and trying to find where Mrs. Julia hid all the freakin candles only to realize what you thought was a candle was actually a soap dispenser.

But that's life, isn't it? gt;had game on phone for several years >probably 200+ hours
>first time playing in a while, seems like fun!
>be wizard
>find ghost on level 2
>get dried rose
>+3 plate armor
>mfw
>breeze through first 2 bosses
>get to the mines
>jump through chasms all the way to boss
>no damage taken
>fight dm-300
>killed instantly by angry pickaxe-toaster

10/10, his pickaxe was probably diamond.. Just to kill time.. I can already tell I'm going to spend a lot of time just chilling out and hangin' with the regal giraffe in Shu's garden.

This is a weird game, but it is delightfully cute and incredibly calming. Very well done.

I expected something lemmings style. The mechanics is quite different, but equally funny.

On the only bad thing is on my ubuntu 14.04.4 it destabilizes steam (I saved dodos, but eventually I had to "kill -9" steam). Game crashes on start up.. Totally underrated!

Great Music

Lovely Story

Feels like a fairytale from child days:). I found this game to be exactly as described on the tin. A mix of escape the room and find the item. A couple of medium difficulty puzzles, but nothing too new or hard for a fan of such games to work out. Well animated and decent music. Unlike some point and clicks the items you find have a logical use and I didn't need to use a herring on a big tree.

The one downside I would say is that having completed the game, my play time is 46 minutes. This may be increased by others as I was familiar with all of the puzzles and how they work, but I wouldn't see anyone getting more than a couple of hours out of this.

The downside mentioned is counteracted, of course, by the price. I bought it on sale for £0.95 and I certainly got more enjoyment out of it then a cup of tea I could buy with that change.

Overall, I would recommend this to those who enjoy escape the room games, but it is nothing too special or grand. I hope that the developers will put the time in to create a longer title of a similar vein.. $good \ u2665 \ u2665$

It keeps my hands warmed up and I also get to learn a few excerpts from famous writers.. I liked this one! Nice spooky story:) some puzzels was new compared to the other new york series, which was interesting.. cosmo can suck my $\forall \forall \forall \forall \forall \forall ')$ vince is my queen; \forall
